

Greiten's Auto Service

Description:

Thanks for stopping by Greitens Auto Service, where our motto is "Modern repairs, classic service". After more than 30 years of working for Greitens, I bought the shop and made a pledge to continue to offer the work Greitens has been known for since Dick and Fran Greiten opened in 1973.

At Greitens Auto, we understand that you have many choices when it comes to servicing your vehicle. We appreciate the opportunity to provide quality work with a personal touch. We're not some big corporate-owned repair factory, where you and your vehicle are treated like a number. Our modest size allows us to work quickly on your car and get you back on the road in no time. We'll let you know our costs up front, and a realistic estimate of when the work will be done.

It's important to keep your car's maintenance up to date. We can recommend a realistic maintenance schedule for your vehicle, which is especially important in Wisconsin's seasonal extremes. There are many automotive repair shops in Milwaukee. We hope that you choose Greitens Auto Service for all your repair/maintenance needs.
