

## **Heartland Cruisers**

### **Description:**

We are a small club with absolutely no dues, no rules, and no officers. This works because you can not find a more eager and happy-to-help group of people.

We are located in the heart of Texas. When the original group could no longer put on the car show here in Brownwood, we just could not let it die out; so began the Heartland Cruisers.

It was primarily the brain child of three, Paul, Donnie and Wayne, but it is in the heart and soul of countless rodders. The group just grows and grows. It may even be time to organize as a structured association.

During the year we participate in many activities. The big event was our Rod Run in June with 270 entries from everywhere you could imagine.

We also held a car show for the Brownwood Reunion.

In some form or fashion we participate in approximately 40 events over the year. You know, there are only 52 weeks in a year, but who is counting when you are having fun.

What a Great Group we have, and thanks to all that pitch in and make it happen.

Country: USA

State: Texas

City: Brownwood
