

No Limits Kustoms

Description:

No Limits Kustoms is a non-profit car, truck and bike club based in Tuscaloosa, Alabama. We travel as a club to events all over the Southeast. While some clubs focus on how many members they can get and the quality of the rides, we focus on the quality of our members and what impact we can have on our community. Our club is made up of good people that become great friends. We support other car clubs in the area with thier efforts also. To us, this is not a competition, but an honor that we are able to make an impact. Some of our custom rides have shown up in magazines and on videos. Our club is made up of members with various skills that allow us to do almost entirely all of our own work. From body and paint, to airbags and lifts, NLK has a member with the knowledge to get it done.

Through-out the year we will hold shows and fundraisers to support local charities. In addition we adopt a local family to help with making their Christmas wishes come true. This is possible due to the the support of our great community. Our Adopt-A-Family program is our most important cause. Each year we make sure that we are able to help make a Christmas dream come true. We not only provide a few gifts, but we provide a true Christmas dream. We will provide hundreds of gifts to families. We also provide a large feast for them. The most important part, at least to us, is that we actually deliver all of this in our custom rides and do a "personal car show" right in their yard. We make the family feel like they are special for the day, because to us, they are.

If you are interested in learning more about us, drop us a line and we will be glad to contact you. If you are an area business that would like a partnership with our organization, just contact us. We will be glad to work with you.

We urge everyone to get involved in your community and local charities. Contact your chamber of commerce for a list of local charities. Tell them No Limits Kustoms sent ya!
