

## **Little Guys Street Rods**

### Description:

The Little Guys Street Rods is a group of guys & gals from North San Diego County that share a common interest in the building, driving and showing of modified and special interest pre 1974 cars & trucks and Muscle Cars (originally manufactured in the USA in 1973 or earlier). We have been an active club since 1977 and enjoy building and driving our vehicles to rod runs and car events all over southern California. Thank you for visiting our little place on the web, please feel free to contact us if you have any questions, comments or would like to attend a Little Guys meeting or event. We are always looking for good new members interested in a family oriented car club. If you're building a car and have any questions, we have centuries of combined experience and love to share with others with similar interests.
