National Corvette Restorers Society

Description:

We are a nationwide (actually worldwide) organization dedicated to the restoration, preservation, history and enjoyment of Corvettes made from the model years 1953 through 1993. If you're in central California and interested in Corvettes that are just like they were when they left the factory, then we're your club. Activities are centered in the Nipomo/Arroyo Grande area but we have members from Ventura through Monterey. Check our events calendar for meeting and event locations/times.
