

Cruisin' North Car Club

Description:

A non-profit organization that since 1987 hosts many events each month for its members and in support of our local community. We currently have about 70 active members.

Our club welcomes all American made classic cars and trucks that are pre 1979. Your hotrod does NOT have to be road ready, meaning the hotrod does not run, but it is a work in progress, and you can apply for membership to Cruisin' North Car Club, Inc.

Our club goal is to share the history of old cars with families that have never had the pleasure of experiencing a classic vehicle. This is our way of bringing the public together while helping promote miscellaneous community sponsored events throughout each year.
